

“KAILASH - CELEBRATING 20 YEAR’S OF EXCELLENCE”

Wow! Twenty years! It is hard to believe but we are celebrating our twenty-year anniversary. A lot has changed in those twenty years but more importantly, a lot has stayed the same.

In 1994, we are not sure we would have predicted where “KAILASH” would go in 20 years. We don’t think we are surprised that we have succeeded, because we have always been willing to work hard and put our customers first. We have always been willing to change to better serve our customers, and this has allowed us to grow and expand our service offerings. Throughout these changes, two things have remained constant. One has been our constant striving to meet our customers’ need with practical and cost-effective solutions. The other is that KAILASH’s best attribute has always been its people. They are a group of incredibly bright and motivated people that have come together over the years and become like a family in many ways. And as with all families, we have celebrated our successes together and pulled together in rocky times. We are filled with pride at what the KAILASH family has achieved and all that we have accomplished with our customers.

The success of KAILASH over the last 20 years is certainly gratifying. KAILASH have never hesitated to listen to what our customer needs are and adapt them: to share our experiences with our customers: and to take a leadership role in our profession.

We believe we can change our industry, and our history serves as a good guide to the future. Please join us in making the next 20 years even more exciting and rewarding by changing the way people think about their facilities.

“KAILASH A NEW WORLD”
